## **PERSONAL PROFILE**

---

From an early age, I have always had a interest in motorsport. Attending various tracks across the UK to support my dad, it was inevitable that I would eventually become actively involved in motorsport.

At the age of 16, I was old enough to obtain my race license which i swiftly did. I was lucky enough to have the opportunity to race in two driver races with my dad, in which we had considerable success in historic cars.

In 2020, I turned my eye to highly contested one make championships, and narrowly missed out on the MG Trophy Championship in 2022 by 1 point. This year, I have entered the Civic Cup, which is a large step up for myself. One of the obstacles I face every year is the budget for racing. Over the years, we have always overachieved on a smaller budget compared to other competitors. Any help towards this will help push our championship challenge, and keep the dream of progressing it to British Touring Cars

### 2024 Season

At Bromley Motorsport, we're always pushing ourselves to take on bigger and better challenges. And this year, we're excited to be entering the Civic Cup - one of the most demanding one make championships out there. With the added excitement of being featured on the Touring car (TCR) package, we know that this year's challenge will be tougher than ever before. But we're ready to take on the competition and show everyone what we're made of.

Our driver for this years championship challenge is Josh, who is returning to front-wheel drive, where he has had considerable success racing at the highest level. Despite our racing expertise, we face an obstacle of limited budget. This is precisely why we are reaching out to businesses for potential partnerships to promote your brands directly on our Civic Cup Championship Challenging Car. By partnering with us, you will support the sport that we love while promoting your business incredibly. Join us and take this fantastic opportunity!
